1. 創建 learning advantage 的帳號

問題/症狀

我怎樣才能創建 learning advantage account?

解決方法

您需要填寫下面的申請表格, 我們建議您先和 Siemens 客戶經理/代理商聯繫.

<http://training.plm.automation.siemens.com/mytraining/lacorprequest.cfm>

Learning Advantage
Maximize Your PLM Investment with e-Learning

[Siemens PLM Software](#) [Training](#) [Site Explorer](#)

[Learning Advantage](#) > [Corporate / Enterprise Membership Request](#)

Corporate / Enterprise Membership Request

Specify the quantity and type of membership you wish to purchase. Our staff will contact you to confirm the pricing and volume discount that applies to this order.

Membership Quantity (minimum 5):

Membership Type: ☐ Gold Membership ☐ NX Membership ☐ Teamcenter Membership

💡 Academic Gold Memberships for eligible institutions are available to new accounts as part of the Academic Membership Program. For more information, see the [Frequently Asked Questions](#). For existing accounts, your Learning Advantage administrator can request additional memberships by selecting "Purchase Additional" in the Membership Details section of their Corporate Account Administration screen.

Customer Contact Information - Please review all fields below

First Name:

Last Name:

Email:
Must be a corporate email account

Organization / Company:

Billing Address 1:

Billing Address 2:

Phone Number:

Fax Number:

Sold To or Install Number:

GTAC Greater China

Teamcenter Tips

2. 在查詢中使用動態 LOV

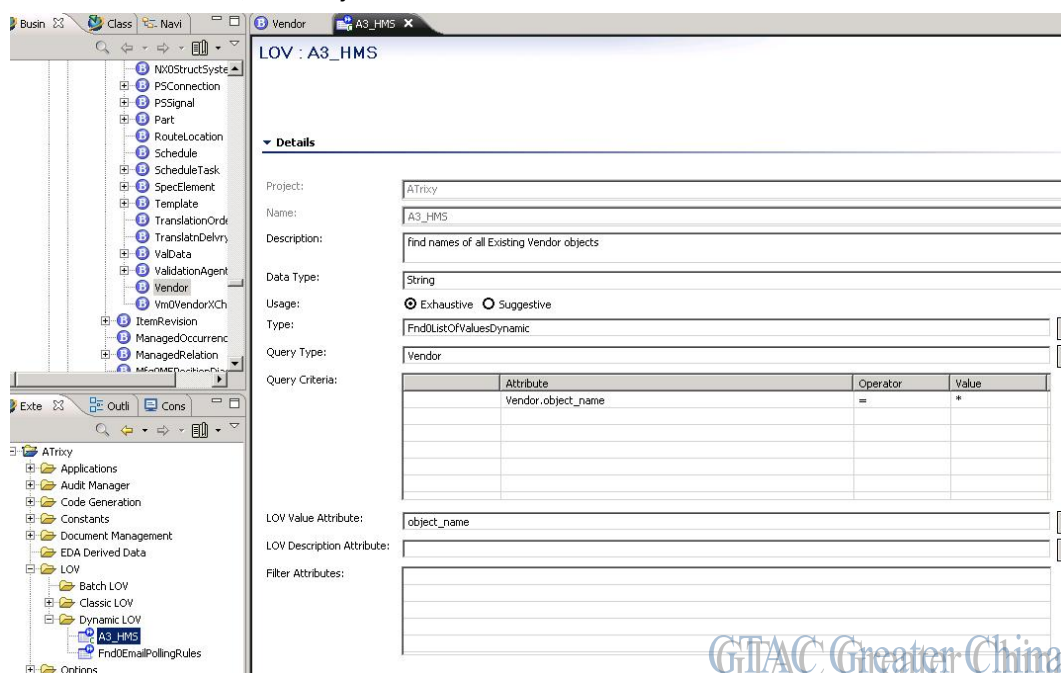

該例中，我們將為提供商定義一個動態 LOV，並建立一個查詢來查詢屬於特定提供商的提供商零件。

1. 創建動態 LOV。該 LOV 會搜索資料庫並找到所有的提供商物件

查詢類型: Vendor

查詢準則: Vendor.object_name

LOV 值屬性: object_name

LOV : A3_HMS

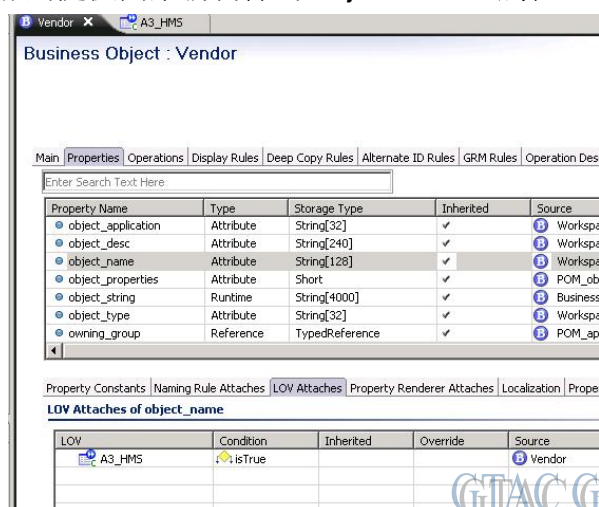

Details

Project: ATrivy
 Name: A3_HMS
 Description: find names of all Existing Vendor objects
 Data Type: String
 Usage: ☒ Exhaustive ☐ Suggestive
 Type: FindListOfValuesDynamic
 Query Type: Vendor
 Query Criteria:

Attribute	Operator	Value
Vendor.object_name	=	*

LOV Value Attribute: object_name
 LOV Description Attribute:
 Filter Attributes:

2. 附加 LOV。附加到提供商業務物件的 object_name 屬性

Business Object : Vendor

Main | Properties | Operations | Display Rules | Deep Copy Rules | Alternate ID Rules | GRM Rules | Operation Desk

Enter Search Text Here

Property Name	Type	Storage Type	Inherited	Source
object_application	Attribute	String[32]	✓	Workspa
object_desc	Attribute	String[240]	✓	Workspa
object_name	Attribute	String[128]	✓	Workspa
object_properties	Attribute	Short	✓	POM_ob
object_string	Runtime	String[4000]	✓	Business
object_type	Attribute	String[32]	✓	Workspa
owning_group	Reference	TypedReference	✓	POM_api

Property Constants | Naming Rule Attaches | **LOV Attaches** | Property Renderer Attaches | Localization | Proper

LOV Attaches of object_name

LOV	Condition	Inherited	Override	Source
A3_HMS	IsTrue			Vendor

3. 保存並部署 BMIDE
4. 登錄進富用戶端，並建立查詢。查詢構建器定義如下：

查詢類: Part

增加兩行查詢準則

Name: HMS-find Vendor Parts

Description:

Query Types: Local Query

Search Class: Part Show Hints

Modifiable Query Types: Local Query

☐ Show Indented Results

Revision Rule:

Attribute Selection

Display Settings

- object_type
- revision_number
- process_stage_list
- date_released
- release_status_list [ReleaseStatus]
- project_list [TC_Project]
- object_name
- license_list
- owning_project [TC_Project]

Search Criteria Order By

	Attribute	User Entry L...	User E...		Default Value
	object_type	object_type	Type	=	
AND	Vendor:TC_vendor_part_rel.object_name	object_name	Name	=	

5. 運行查詢。運行查詢時，為查詢欄位輸入值

sparky (sparky) - dba / DBA - [IMC--2022803922]

Home Search

HMS-find Vendor Parts

Type: Vendor Part

Name:

Name
ACME
WIDGET

Tecnomatix Tips

3. 無法關聯 schema

症狀/問題

當安裝 eMserver 9.1.1 時候, 關聯到原來的 schema 的時候, 出現了下面的錯誤:

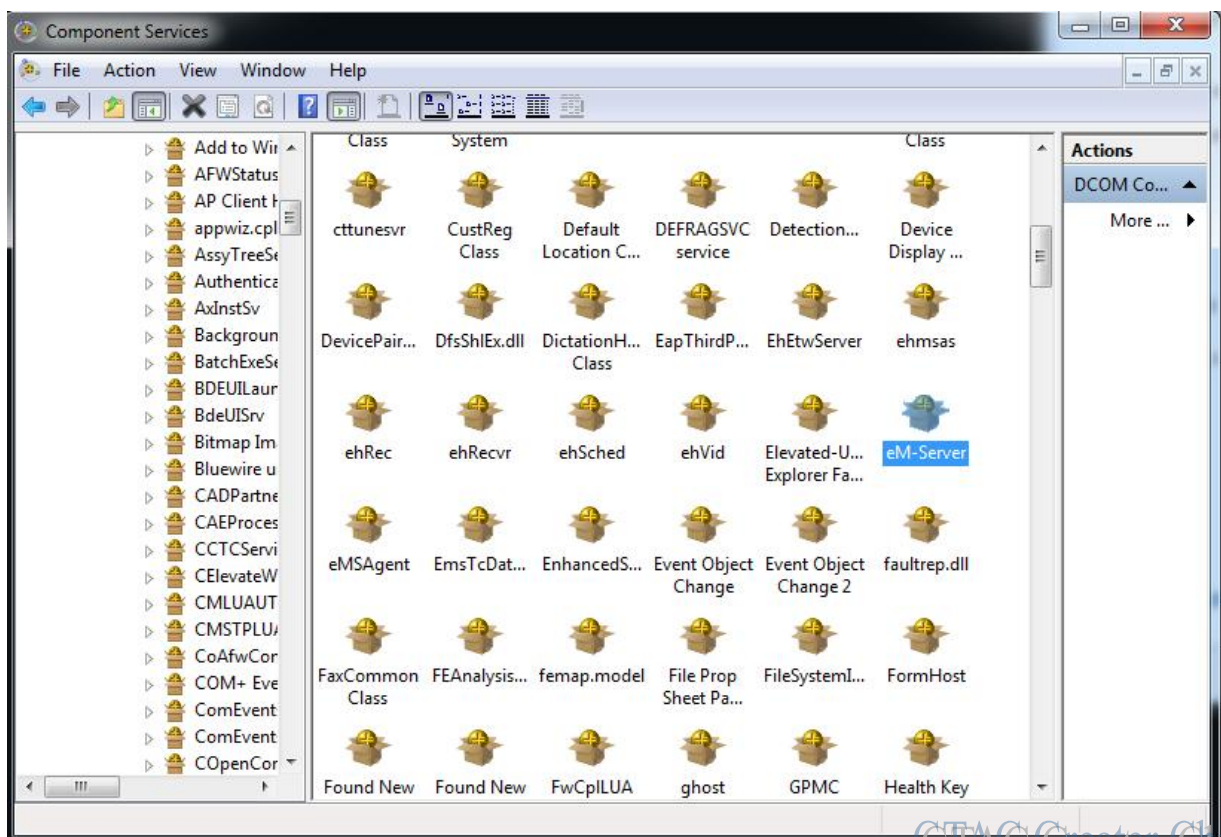

"Failed to retrieve schema association information from eMServer 'EMPLANNERXXX';
The server process could not be started because the configured identity is
incorrect. Check the username and password. (Exception from
HRESULT:0x8000401A)"

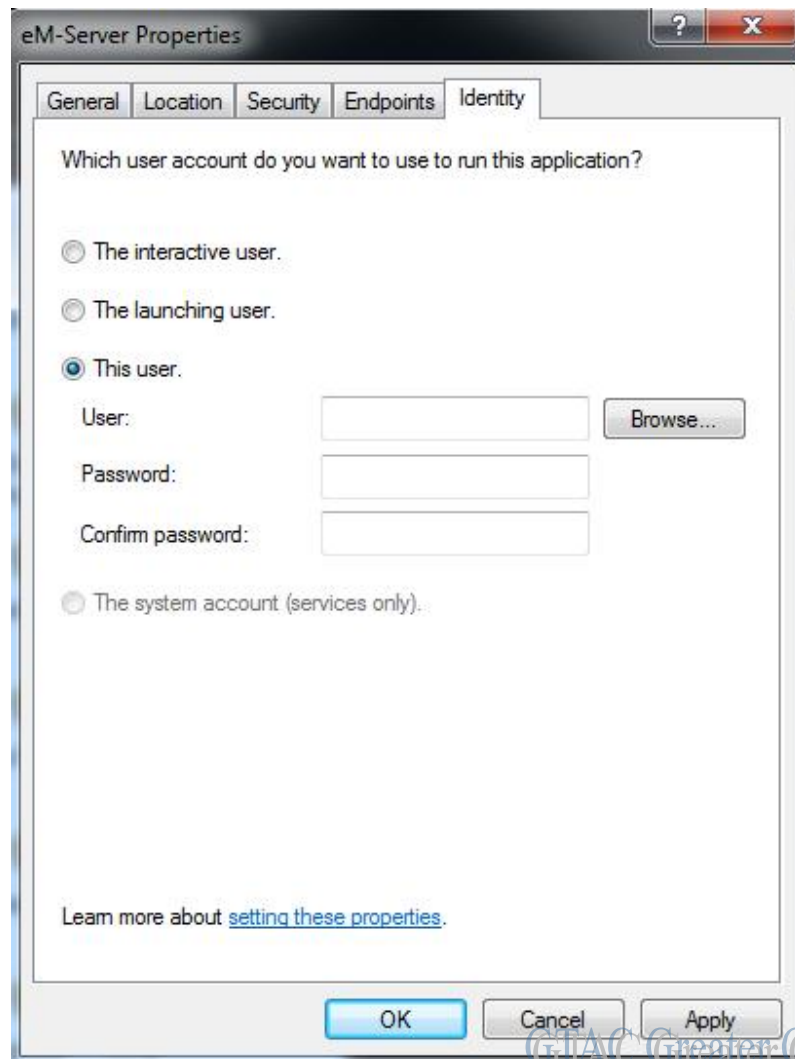

當點擊 ok 後, 又出現了下面的錯誤:

"The server process could not be started because the configured identity is
incorrect. Check the username and password. (Exception from HRESULT:
0x8000401A)"

解決方法

只要到 eMServer 的 COM+ component 中的 Identity 頁中, 找到 "this user", 輸入正確的
帳號和密碼, 問題就能解決.
